

Straight from the Edinburgh Fringe

Never before has homeopathy featured in the Fringe. We had a great response to our show and attracted above average numbers of people, all of whom did an image and filled in a questionnaire about themselves. Our show is available to tour and be included in your programme to promote homeopathy with the public. Art and homeopathy uses artistic expression as a way into a case, as well as into a remedy. All the images on this card were done by artists on different days of the show, who took a remedy we had made and proved some weeks before and all of them of them introduced images which had a connection with the remedy. This is the first example ever of this sort of addition to a proving. If you are interested in having our show on tour then contact us. If you are interested in a private art and homeopathy consultation then we can do that in Edinburgh, York or London. www.artandhomeopathy.org ifhamilton@yahoo.co.uk https://www.facebook.com/artandhomeopathy/?modal=admin_todo_tour
